SUMMARY

Computer Science student specializing in Artificial Intelligence and Machine Learning with strong foundations in Data Structures & Algorithms, Object-Oriented Programming, and Software Engineering. Experienced in building production-ready web and mobile applications, backend systems, browser extensions, and AI-powered solutions. Passionate about solving real-world problems through scalable technology and collaborative development.

PROFESSIONAL EXPERIENCE

Bluestock Fintech

May 2025 – June 2025

Software Developer Intern

Remote

- Assigned to develop a production-ready IPO website using the MERN stack.
- Collaborated across development teams to integrate features for final deployment.
- Led the intern team and reported progress directly to the product manager.

AiBi Tech

July 2025 – Present

Associate Software Engineer Intern

Bengaluru, India

- Developed cross-platform mobile application features using Flutter and integrated backend APIs for production deployments.
- Designed and developed a production-grade web application using Node.js, Prisma ORM, Docker, SQL and NoSQL.
- Built scalable REST APIs, authentication systems, database schemas, and deployment workflows.
- Created and deployed three Chrome Extensions that automated business processes and improved operational efficiency.
- Worked closely with stakeholders as a Solutions Engineer to convert business requirements into scalable technical solutions.
- Collaborated with product, QA, and DevOps teams to deliver reliable, high-performance software solutions.

ACADEMIC PROJECTS

Hateful Meme Detection System

2024

Python, OCR, CNN, BERT

- Implemented OCR and CNN-based classification to detect hateful content in multimodal memes.
- Performed text extraction using Tesseract OCR and feature extraction using deep learning techniques.
- Achieved high classification performance through multimodal feature fusion.

TECHNICAL SKILLS

Languages: Java (DSA), C/C++, Python, JavaScript, SQL, Dart

Web & Mobile: HTML5, CSS3, React.js, Node.js, Express.js, Prisma ORM, Flutter

Databases: MySQL, PostgreSQL, MongoDB

Frameworks & Tools: Docker, Git, GitHub, Postman, TensorFlow, PyTorch, Tesseract OCR

Developer Tools: VS Code, IntelliJ IDEA

SOFT SKILLS & METHODOLOGIES

Problem Solving | Cross-Functional Collaboration | Agile Methodologies | Leadership | Deadline-Driven Execution

EDUCATION

Sikkim Manipal Institute of Technology

2022 – 2026

B.Tech in Computer Science Engineering (AI & ML), CGPA: 9.1

Sikkim, India

ACHIEVEMENTS

- 1st Place – Tech Adrishta 2023 Coding Competition, SMIT.
- College Finalist – Smart India Hackathon 2024 (Top 2 out of 30+ teams).
